

Marian Vonsien

Full Stack Developer

Bad Nauheim, Germany

marianvon29@gmail.com | +49 176 5290 4552 | <https://mvonsien.de>

Passionate full-stack developer with over 5 years of practical experience, including full-time work and a 3-year apprenticeship. I am currently studying Computer Science at THM and working in software development at ZYRES. I enjoy building scalable, intuitive web applications and solving complex problems through clean code, collaboration, and continuous learning.

Career Journey

Working Student (Software Development) — [ZYRES digital media systems GmbH](#)

2026 - Present

Working on practical software projects while continuing to develop my skills in web technologies, e-commerce systems, and DevOps.

Computer Science — [Technische Hochschule Mittelhessen](#)

2026 - Present

Studying Computer Science while building on my practical experience in software development.

Full Stack Developer — [ZYRES digital media systems GmbH](#)

2023 - 2026

Development of extensible, scalable, and maintainable software solutions such as E-commerce webshops, real-time event processing pipelines, and custom Content Management Systems (CMS), tailored to various client needs.

Apprenticeship (IT-Specialist for Software Development) — [ZYRES digital media systems GmbH](#)

2020 - 2023

Learned to plan, develop, test, and maintain scalable software solutions through hands-on projects.

Vocational School (IT-Specialist for Software Development) — [Werner-von-Siemens Schule](#)

2020 - 2023

Studied the foundations of software development alongside my apprenticeship at ZYRES.

Secondary Education — [Adolf-Reichwein Schule](#)

2014 - 2020

Secondary education with a focus on computer science.
